ELITE BEEF GREEN FEED LICK

Elite Beef Green Feed Lick is a weather-resistant loose lick supplement, balanced in vitamins and minerals, specifically formulated to manage mineral imbalances that often occur and to support the health and performance of for growing calves, cows and bulls when grazing on lush, green pastures.

Elite Beef Green Feed Lick:

- Is a source of macro minerals including calcium, phosphorus, magnesium, sulfur and sodium;
- Is a source of vitamins, including A, D, E & B1 and trace minerals including zinc, manganese, cobalt, selenium, copper, iodine to support animal health.
- Should be offered on an ad-lib basis, with initial introduction occurring when cattle have access to good quality forage.

Elite Beef Green Feed Lick should be offered to animals on an ad-lib basis. Offer in containers with suitable drainage to prevent water retention. Average intakes will be 100-150g/hd/day – initial intakes may be higher before reducing to the desired rate after 10 to 14 days. If intakes remain high, please speak with your NFS Nutritional Consultant.

Livestock should be introduced to **Elite Beef Green Feed Lick** gradually. If only low quality forages are available offer **Elite Beef Dry Feed Lick** for better results. **Elite Beef Green Feed Lick** is NOT a complete feed - DO NOT offer if forage and fibre availability is limiting. Speak with your NFS Nutrition Consultant for additional information.

Typical Analysis (per Kg, As-Fed Basis)

VIT A	0.36	IU	Sulfur	1.5	%
