ELITE LAMB FEEDLOT 40 PELLET

Elite Lamb Feedlot 40 Pellet is a balanced Vitamin, Mineral & Buffer additive pellet specifically formulated for feedlot lambs to support animal health and performance.

Elite Lamb Feedlot 40 Pellet should be included at 40kg/tonne (2 x 20kg bags) in a grain mix, or 60 grams per head per day in a TMR or as otherwise advised by your NFS Nutrition Consultant.

- Delivers buffering from multiple sources, including Acid Buf® and other alkalisating agents to minimise the risk of acidosis (grain poisoning).
- Delivers a blend of macro minerals including calcium, phosphorus, magnesium and potassium to balance the minerals typically found in feeds available on farm.
- Delivers vitamins, including A, D, E & B1 and trace minerals including zinc, manganese, cobalt, selenium, iodine to support animal health. No copper is added to **Elite Lamb Feedlot 40 Pellet**.
- Contains Lasalocid Sodium (Bovatec®) for improved liveweight gains and feed conversion efficiency, and to aid in the reduction of faecal shedding of coccidia Eimeria spp. in sheep maintained in confinement.
- Contains ammonium salts to minimise the risk of urinary calculi.
- Contains flavouring for palatability.

Elite Lamb Feedlot 40 Pellet is not a protein supplement. Additional protein sources may need to be included in the diet where optimum growth rates and performance are desired. If sufficient additional protein is not available on farm, please consider including either Elite Sheep 125 Pellet, or Elite Sheep 250 Pellet in the diet. Speak with your NFS Nutrition Consultant for additional information.
