ELITE SHEEP DRY FEED LICK WITH RUMIBOOST

Elite Sheep Dry Feed Lick with Rumiboost is a weather resistant loose lick supplement, balanced in vitamins and minerals, specifically formulated to support the health and performance of growing lambs, ewes and rams grazing low quality dry feeds and stubbles.

Elite Sheep Dry Feed Lick with Rumiboost contains higher levels of Vitamin E, Organic Selenium, Chromium, and Zinc, compared to Elite Sheep Dry Feed Lick, as well as live yeast, bacteria and phytogenic compounds to support rumen function and animal health in times of stress including:

- Induction into containment feeding & feedlots;
- Prior to transport;
- During periods of heat & cold stress;
- It is also ideally suited for lambing ewes to help support feed intake and manage excess body condition

Elite Sheep Dry Feed Lick with Rumiboost contains a blend of protein meals and non-protein nitrogen (NPN) sources to promote fibre digestion in the rumen, improving the utilisation of low-quality dry feeds. It is designed to maximise feed conversion and profitability by helping to maintain rumen, gut and immune health along with maintaining hydration during stressful times.

Elite Sheep Dry Feed Lick with Rumiboost:

- Is a source of macro minerals including calcium, phosphorus, magnesium, sulfur and sodium;
- Is a source of vitamins, including A, D, E & B1 and trace minerals including zinc, manganese, cobalt, selenium, iodine to support animal health. No copper is added to **Elite Sheep Dry Feed lick with Rumiboost**;
- Should be offered on an ad-lib basis, with initial introduction occurring before feed quality declines, or sheep start losing weight

Elite Sheep Dry Feed Lick with Rumiboost should be offered to animals on an ad-lib basis. Offer in containers with suitable drainage to prevent water retention. Average intakes will be 20 to 30 grams/head/day – initial intakes may be higher before reducing to the desired rate after 10 to 14 days. If intakes remain high, please speak with your NFS Nutritional Consultant.

Livestock should be introduced to **Elite Sheep Dry Feed Lick with Rumiboost** gradually as this product contains Urea and may be toxic at excessive levels. **Elite Sheep Dry Feed Lick with Rumiboost** is NOT a complete feed - DO NOT offer if forage and fibre availability is limiting. Speak with your NFS Nutrition Consultant for additional information.

Typical Analysis (per Kg, As-Fed Basis)

VIT A	IU	325,000	Magnesium	%	2.7%
VIT B1	mg	218	Sulfur	%	0.9%
VIT D	IU	55,000	Cobalt	mg	27
VIT E	mg	5,500	Iodine	mg	27
Crude Protein	%	26.0%	Manganese	mg	2180
Crude Protein Eq	%	25.0%	Selenium	mg	12
Max Added Urea	%	10.0%	Zinc	mg	4500
Max Added Salt	%	16.0%			
Crude Fibre	%	5.0%			
Calcium	%	9.0%			
Phosphorus	%	2.7%
