ELITE SHEEP 250 PELLETT

Elite Sheep 250 Pellet is a Protein, Vitamin, Mineral & Buffer additive pellet formulated for inclusion into grain mixes and diets for a range of sheep including lambing and lactating ewes, and feedlot lambs to support optimum animal health and performance.

The proteins included in **Elite Sheep 250 Pellet** have been selected to support superior animal performance by complementing, and balancing cereal grains on-farm in situations where there are limited protein sources available. **Elite Sheep 250 Pellet** should be fed at 250 grams/head/day in either a grain mix, or a TMR.

Following a suitable induction program, this mix would be offered to feedlot lambs on an ad-lib basis in conjunction with a suitable source of effective fibre and clean, fresh water.

- Delivers buffering from multiple sources, including Acid Buf® and other alkalisng agents to minimise the risk of acidosis (grain poisoning).
- Delivers a blend of macro minerals including calcium, phosphorus, magnesium and potassium to balance the minerals typically found in feeds available on farm.
- Delivers vitamins, including A, D, E & B1 and trace minerals including zinc, manganese, cobalt, selenium, iodine to support animal health. No copper is added to **Elite Sheep 250 Pellet**.
- Contains Lasalocid Sodium (Bovatec®) for improved liveweight gains and feed conversion efficiency, and to aid in the reduction of faecal shedding of coccidia Eimeria spp. in sheep maintained in confinement.
- Contains ammonium salts to minimise the risk of urinary calculi.
- Contains flavouring for palatability.

In feeding programs where additional protein is not required, Elite Lamb Feedlot 40 Pellet may be better suited. Where other protein sources are readily available, Elite Sheep 125 Pellet may be more appropriate. Speak with your NFS Nutrition Consultant for additional information.

Typical Analysis (DM @ 88%)

Crude Protein	39.6	%
Crude Protein Equivalent	9.5	%
Min ME	10.3	MJ/KG
Max Added Urea	2.2	%
Max Added Salt	1	%
Crude Fibre	7	%
Calcium	4	%
Phosphorus	1	%
Magnesium	1	%
Potassium	1	%
Sulfur	0.8	%
VIT A	36,000	IU
VIT D	6,000	IU
VIT E	90	MG
VIT B1	24	MG
Cobalt	3	MG
Iodine	3	MG
Manganese	240	MG
Selenium	1.2	PPM
Zinc	300	MG
Acid Buff	1.5	%
Lasalocid Sodium	200	MG

Withholding Period(s):

Meat Sheep – NIL (0) days

Export Slaughter Interval (ESI):

Sheep – An ESI has not been established

This product contains Lasalocid sodium (Bovatec®). Do not allow dogs, horses or other equines access to feeds containing **Elite Lamb 250 Pellet** – ingestion of these feeds may be fatal. DO NOT FEED to lactating ewes where milk, or milk products may be used for human consumption.
