## ELITE SHEEP 125 PELLET

**Elite Sheep 125 Pellet** is a Protein, Vitamin, Mineral & Buffer additive pellet formulated for inclusion into grain mixes and diets for a range of sheep including lambing ewes and feedlot lambs to support optimum animal health and performance.

The proteins included in **Elite Sheep 125 Pellet** have been selected to complement and balance the protein sources typically available on-farm (e.g. Peas, Beans, Lupins), supporting superior animal performance. **Elite Sheep 125 Pellet** should be fed at 125 grams/head/day in either a grain mix, or a TMR.

Following a suitable induction program, this mix would be offered to feedlot lambs on an ad-lib basis in conjunction with a suitable source of effective fibre and clean, fresh water.

- Delivers buffering from multiple sources, including Acid Buf® and other alkalis agents to minimise the risk of acidosis (grain poisoning).
- Delivers a blend of macro minerals including calcium, phosphorus, magnesium and potassium to balance the minerals typically found in feeds available on farm.
- Delivers vitamins, including A, D, E & B1 and trace minerals including zinc, manganese, cobalt, selenium, iodine to support animal health. No copper is added to **Elite Sheep 125 Pellet**.
- Contains Lasalocid Sodium (Bovatec®) for improved liveweight gains and feed conversion efficiency, and to aid in the reduction of faecal shedding of coccidia Eimeria spp. in sheep maintained in confinement.
- Contains ammonium salts to minimise the risk of urinary calculi.
- Contains flavouring for palatability.

In feeding programs where additional protein is not required, Elite Lamb Feedlot 40 Pellet may be better suited. Where no other protein sources are available, and additional protein is required, Elite Sheep 250 Pellet may be more appropriate. Speak with your NFS Nutrition Consultant for additional information.

### Typical Analysis (DM @ 88%)

Crude Protein	34	%
Crude Protein Equivalent	12	%
Min ME	8.3	MJ/kg
Max Added Urea	2.5	%
Max Added Salt	2	%
Crude Fibre	6	%
Calcium	7.5	%
Phosphorus	1	%
Magnesium	1	%
Potassium	0.7	%
Sulfur	0.75	%
VIT A	72,000	IU
VIT D	12,000	IU
VIT E	180	MG
VIT B1	48	MG
Cobalt	6	MG
Iodine	6	MG
Manganese	480	MG
Selenium	2.4	PPM
Zinc	600	MG
Acid Buff	3	%
Lasalocid Sodium	395	MG

### Withholding Period(s):

Meat Sheep – NIL (0) days

### Export Slaughter Interval (ESI):

Sheep – An ESI has not been established

This product contains Lasalocid sodium (Bovatec®). Do not allow dogs, horses or other equines access to feeds containing **Elite Lamb 125 Pellet** – ingestion of these feeds may be fatal. DO NOT FEED to lactating ewes where milk, or milk products may be used for human consumption
